Zero 7
design Giovanni Baccolini

EVER-CHANGING CHAIR

The Zero7 can wear many hats, the mesh back is ideal for a user looking for flexible support and air flow, while the polypropylene back is perfect for a user who likes to get messy and the upholstered back is suited for a more traditional comfort. The Zero7 doesn't stop there, with a multitude of arm, mechanism, and seat options further allow versatility to the line. The Zero7 has inspired the award winning Zero9, enhancing the functionality of the line.

A CHAIR TO INSPIRE

The idea of the Zero7 is to allow the user to design a chair based on their needs, wants and desires. Today's modern office chair must be a tool to help inspire, motivate and support the user.

Zero7

Zero7

FEATURES

- The Zero7 is a modular, high performance, ergonomic chair that is capable of fitting into any workspace. Easily paired with our Best of NeoCon award winning Zero9 to complete any environment.
- The backrest is available in three different unique options; scratchproof polypropylene, nylon mesh and with an upholstered panel, all come with standard adjustable lumbar support.
- Scratchproof polypropylene backrest comes with lumbar support in soft anthracite color polyurethane.
- Mesh back version is made of a black nylon frame and covered with nylon mesh.
- Upholstered panel is padded with polyurethane foam on a polypropylene back.
- The seat features a waterfall front edge design to relieve pressure behind the legs. Padded with fire-retardant CFC polyurethane foam, with a polypropylene internal seat, reinforced with steel square tubular bars; the seat pan is made of shockproof and scratchproof polypropylene to match the backrest.
- 4D adjustable T-arms (height, and width adjustment, with pivot and sliding arm pad) have a nylon frame, in black, with comfort polyurethane arm pads.
- Fixed polypropylene armrests come in the same color as the mesh or polypropylene backrest.
- The Zero7 comes standard with a synchro tilting mechanism which uses a multi-block system with several locking position.
- Swivel and seat height adjustment is obtained by a pneumatic gas cylinder.
- Five-Star, nylon base reinforced with fiberglass in Black.
- Carpet Twin-Wheel Casters (#VTW).
- Meets safety and performance standards of ANSI/BIFMA x 5.1-2010.
- Available in all standard fabric, leather, vinyl, as well as COM & COL.
