quality

Quality, durability, functionality, and design all at an incredible value. Our commitment to quality is our hallmark. We stand behind whatever we build and rigorously test our products to exceed BIFMA industry standards. Using durable and long-lasting components such as 7-9 layer American made birch seat platforms, custom grade 8 hardware, metal components vs. plastic, for example, Via Seating maintains a quality far beyond what our competitors consider acceptable. Our team of dedicated and passionate artisans work expertly to deliver the quality and craftsmanship you deserve.

highly skilled, hand-sewn chair

Chairs are hand-sewn by highly-skilled sewers with a strong emphasis on attention to detail. The sewing team offers an apprenticeship program for those new to sewing and a tiered program for those of intermediate-level skills to higher. Only advanced-level sewers are approved to work on projects requiring the most extensive detail work. Quality checks and approval are required before a chair can advance onto the next stage in its build out.

detail inspection

Each chair runs through a visual inspection at each stage of its development. Parts received are manually inspected by a team who tests these parts for consistency, visual quality and durability. Components arranged into kits are inspected. During the build process, parts are inspected for consistency, durability and beauty at each stage.

ergonomics

Our belief is that your chair is the single most crucial factor that can impact your health and wellness at work. Your happiness, productivity and longevity are all impacted by the chair you sit in. We know you spend a lot of time in your chair and your health is paramount to us. Therefore, Via Seating's attention to detail with respect to ergonomic features, and to the contour of our foam seats, ensure you get optimum support, comfort, intuitive movement and ease of adjustment with any of our seating solutions.

4-way stretch elastomeric mesh

Mesh is designed to be supportive and breathable. Providing exceptional comfort while supporting ergonomic posture.

adjustments

Our chairs provide adjustments to provide optimal support for every body. Adjustments can include, seat height, seat depth, arm height, arm rotation, and lumbar adjustments.

supportive design

Our chairs are designed to contour the body in a way that promotes good posture and movement.

Run II

Embrace Run II, an ergonomic task chair or stool. Proprietary comfort foam in a medium or large seat pairs beautifully with the 4-way stretch elastomeric mesh back with integrated lumbar support. Exclusive to the Run II series is a full function ergonomic synchro control mechanism with a 2:1 ratio of movement and an easy-to-use, side tension adjustment. Pair with choice of multiple height adjustable arms including a 4-way adjustable arm with sleek, textured, large cap exclusive to the Run II series. Also available with fixed loop arms for a conference seating application. The Run II series includes a high back, mid back and guest chair.

4u

4u is a cutting edge seating series. The flowing sleek lines of this chair add to the ambiance of sophistication in any environment while also providing incredible ergonomics, comfort, and functionality. A range of back offerings in mesh, upholstered, or the newest, welded fabric “groove”, which is a sleek and comfortable hybrid of both mesh and fabric. Both white and black frames are available with matching arms and bases. 4u also offers 2 seat sizes and two seat shape options with the Euro sit and the comfort sit both available. Also available as task stools.

There’s no doubt about it. This chair is 4u.

Brisbane

Brisbane is a versatile ergonomic workhorse task chair that meets all your comfort and support needs while being customizable to fit everybody in the office. Offering up to 6 seat sizes, 3 back options, multiple controls and arm options including a unique roll back arm that moves out of the way when you don't want or need it. The Heavy Duty 24/7 version includes our 12-year warranty for up to a 400 lb person. Ballistic Brisbane, a unique ballistic nylon version is perfect for security, police and fire departments where utility belts often tear up chair upholstery when sitting with them on in a chair. This super strong nylon material is placed in just the right areas to protect from wear and tear and look great year after year. This includes Brisbane's incredible comfortable and supportive proprietary foam and the heavy-duty 24/7 applications. It even covers the labor. Brisbane chairs are shipped 95% assembled and the price includes shipping.

Genie®

The award-winning, best-selling office chair Genie® series. The distinctive genie lamp contours promote movement by the way the back narrows at the top, which allows for upper body thoracic mobility in the shoulder area and provides great comfort and support throughout the body. This creates an important sense of “room within the chair”. Genie® offers 6 different seat sizes all within the same framework allowing for the one “look” to fit all body types in the workplace.

Genie Flex[®]

The award-winning Genie[®] series designed by Henner Jahns gets an upgraded with Genie Flex. This latest task chair uses a robust Thermoplastic Polyurethane (TPU) material that is remarkable. It is the same material found in athletic running shoes and is also used as a rubber replacement in engineering seals for heavy duty industrial applications. Visualizing its use here in a chair, you experience exceptional support and comfort with 4-way stretch in the material. It is abrasion/scratch resistant, grease and oil stain resistant and is bleach cleanable. Sustainability wise it is 100% chlorine and PVC free and 100% recyclable! Genie flex is warranted for 12 years 24/7 i.e. all components, including foam seat, including TPU material.

Onda

The perfect balance between form and function. When one favors ergonomic function and adjustability the design of the chair tends to take a back seat. The converse is also true when aesthetic considerations take the fore front, then the ergonomic function and adjustability become less important. Onda supports both ergonomic and design philosophies and holds both in perfect harmony without any compromise. Discover instantaneous comfort personalized to the way you sit with with Onda—Italian for “Wave”—Via Seating’s first all mesh chair.

multi-use seating

Vista II

Vista II is a generously padded, stackable, multi-use chair suitable for a wide variety of spaces. This series is made of smooth curves and contoured, waterfall seats shaped perfectly through proprietary, injection-mold, cold-cure foam process. The distance between the back and seat allows for easy clean up in healthcare environments. The lovely arc of their rear legs provides a wall-saving frame. Choose between side/guest chair, stool or bariatric chair. For more options apply a mesh back to play with a range of color and apply increased breathability. Available in natural or black copper mesh, making this a perfect healthcare environment chair.

Eclipse

Inspired by the 50th anniversary of the moon landing, Italian designer Angelo Pinaffo created the Eclipse series. Eclipse chairs have a continuous line, curved like the elliptical orbits of the spherical planets. Their shape generates a clean and essential seat, which conveys lightness. Choose from a stackable, unique v-leg, a classic beech wood or light task swivel base. Available in 3 monochromatic or 3 colorful shades with or without an arm and arm tablet. V-leg chairs stack armless, with arms and with arm tablets. Add an optional upholstered seat. Discover vintage beauty and essential comfort with the 2020 Red Dot Design winning series, Eclipse.

Splash

Splash is a multi-faceted, sophisticated series designed to accommodate a wide variety of spaces. This mobile seating series includes high-density stacking side/guest chairs, stacking stools, light task training chairs, light task stools and high-density stacking desks. Use Splash in training rooms, stacking the chairs and desks on or off their durable, mobile carts. Use Splash in classrooms applying book racks and tablets to the chair or stool arms. Splash is a perfect light task solution, available as both a 4-star base chair or stool. Keep it classy with Splash's various monotone shades or apply pops of color to its poly shells, optional mesh backs and optional upholstered components. Splash delivers an elegant, Italian-designer, versatile collection made perfect for a range of applications all at an economic price.

Spec Stools

Spec stools are the perfect companion for the fast-paced environment of a physician or caregiver. Instantly adjust the height choosing the method – hand or foot ring – that fits the way you work. Their classic style and seamless upholstery support infection prevention and easy clean up. Apply glides or instant lock wheels available for hard or soft floors. Spec stools’ compact profile and versatile options make each stool an ideal choice in labs, in medical training rooms, to pair with an artist’s drafting table and as guest seating.

Copper-infused mesh

Our manufacturing partner has developed a unique copper infused mesh by partnering with Cupron, utilizing their copper-based proprietary technology. The copper mesh works by physically embedding an EPA registered copper into the fibers of our Via Seating copper mesh. Through this process, the copper will not wear off like topically applied alternatives. The result is a self-sanitizing, copper-infused mesh that has strong biocidal, antifungal, and antiviral properties. There are additional anti-odor properties to the copper mesh as well. It is available in natural and black finishes for the following collections: Genie®, Splash, Vista II, Run II, Onda, 4U and Reset.

Edge

Step outside of the boundaries of lounge with the Edge chair. Its abundance of bases delivers a variety of seating solutions from lounge, executive guest, and lobby to conference and break out area applications. Play with pattern and color utilizing Edge's multiple upholstery options. Add flare with the contrasting stitch that flows smoothly along the stunning lines and curves of its namesake edges. Be on the Edge of innovation where design merges with comfort to unlock a seat that is as luxurious to look at as it is to sit in.

Chico

Where contemporary design meets European style, Chico is born, a versatile series mixing soft angles and bold lines. Chico, designed by Steinar Hindenes, Anders Berg and Peter Knudsen, makes a statement and it does it comfortably. Enjoy settling back into a thick layer of injection molded foam over this lounge seat's sturdy metal framework. Apply multiple bases including a sturdy and stylish, wire-frame x-base.

Muir

Consider your desired pose when reviewing a piece of art. You want to feel undisturbed in your reflection and focused on the object of your gaze. Having something comfortable but not puffed up, elegant but not aloof, uncomplicated but classically finished would be the perfect perch. This was the inspiration for Muir by Via Seating's Studio V. Its design is versatile and unassuming, delivering a perfect balance of presence with its wire outer frame. With its deliberate low profile Muir immediately and intuitively creates a casual sit with perfect seat and back angle positioning.

Orbit

Orbit is a classic, round form elevated by Via Seating's motion-lounge experience. Enjoy its 360 swivel or rock & swivel. Orbit can also be fixed upon the sturdy and stylish, wire frame "X" base available in multiple finishes. Enhance the beauty of Orbit by applying different upholstery to its seat and back. Orbit is the perfect solution for lounge, lobby, and executive guest spaces.

Nebula

Embrace Nebula, the latest sofa by Via Seating's Studio V. Its shape expands upon the sophisticated and playful curves of the Meteor chair. The compact, clean profile of the Nebula sofa widens its applications making this perfect for lobbies, lounges, suites and more. The proprietary blend of high-density, injection-molded, closed-cell, cold-cured foam ensures maximum comfort. Available to be specified with matte black or silver wire framework. Further personalize Nebula with two-tone upholstery and emphasized stitch.

Meteor

Meteor streaks across your interior in a blaze of style and flair and enters into the lounge scene, revealing a seat that is both sophisticated and playful. Its shape is a smaller scale cousin to Astro. It is one that elevates a space through its comfort and play elements. It unveils a designer lounge piece that is balanced perfectly atop a variety of stylish bases. When sitting, discover the motion-lounge experience by swiveling, rocking and swaying. Claim Meteor as your own by applying color and pattern across its dual upholstery back and seat.
