Laptop Arm

Introducing RISING BPD's One-Solution Monitor arm

Elevated Design and Finish Options

the monitor arm is one of the most viewed objects of the entire office, due to its placement towards the rear of the desk. Designed with sophistication and elegance from the inside out, Rising redefines the monitor arm as a piece of functional beauty.

STEP 3

STEP 2

STEP 1

Choose between Standard, In-Trend and Premium finishes – all carefully curated to enhance your space.

Introducing SnapKinect™

Traditional monitor arms require specialized tools and lengthy instructions for proper installation. With Rising, the SnapKinect connection system allows the arm to be assembled and installed in 3 easy steps – so you can get to work faster than ever.
