MORE OPTIONS. MORE PERFORMANCE. MORE COMPASS.

# YOUR SPACE, EVOLVED

colors and finishes may vary

Designed to meet the evolving needs of today's modern offices, the Compass line brings together contemporary design and value for a top of the line performance enhancing office solution. With a variety of features and design options, this system was created to fit a range of unique spaces and needs.

**Exquisite design, power and performance all are all combined into Compass' streamlined 2" panel system, allowing for a customizable, all-inclusive workspace.**

## More Options

Match Compass to the unique needs of any workspace with the addition of either a sliding or hinge door, segmented glass, and choose from a series of panel, worksurface depth and leg options.

## More Performance

Multiple panel heights up to 82" as well as carefully considered details such as various finish and storage options provide the optimal user experience.

## More Compass

Optimized for customization and adaptation, as our modern office spaces change, Compass changes with them.
