COMPASS ENVIRONMENTAL DATA SHEET

CALCTRA
Career Training | Quality Products | Changed Lives

Product: Compass
Product Category: Panel System
Leed Contributions: Recycled Content, Recyclable Materials, Locally Sourced Materials, Low Emitting Materials

Material Information:

Material Fabric Tiles 80"H x 48"W (Largest size/worst case)	Weight (lbs)	% Weight	Recycled Content %	Post-Consumer		Pre-Consumer		Recyclable? (Y/N)
				%	% Weight	%	% Weight	
Core - OSB Hardboard Honey Comb	35	60.6	100	100	100	0	0	Y
Fabric - Textile	5	8.66	Varies	Varies	Varies	Varies	Varies	Varies
Raceway - Steel	9.594	16.61	100	50	50	50	50	Y
Slotted Channel - Steel	5.368	9.29	100	50	50	50	50	Y
Electric Mount Bracket - Aluminum	0.22	0.38	100	Varies	Varies	Varies	Varies	Y
Top Trim - Aluminum	0.954	1.65	100	Varies	Varies	Varies	Varies	Y
Spring and Hardware - Steel	0.5	0.87	100	50	50	50	50	Y
Legs - Aluminum	0.976	1.69	100	Varies	Varies	Varies	Varies	Y
Electric Mount Bracket Extrusion - Aluminum	0.055	0.1	100	Varies	Varies	Varies	Varies	Y
Foam Light Block	0.088	0.15						
Sub Total	57.76	100						

- Data displayed is based on the "worst-case scenario", which is the largest size panel available
- Amounts of material usage differs based on the size of the panel
- Aluminum is 100% recyclable although the quantity of post-consumer and pre-consumer aluminum varies
- Fabric recycled content is dependent on supplier and pattern chosen
- Calculations of recycled content is based on supplier data provided
